

LOCAL GUARDSMEN SOON LEAVE FOR ENCAMPMENT

Advanced Detail Is Sent to Make Preparations for Coming of Companies

George W. Lewenstein of Company M, and Russell J. Eiffler of Headquarters company, Third Battalion, One Hundred Sixtieth Infantry, are to leave late this afternoon for Monterey to represent the Glendale companies in the preparation for the annual National Guard Infantry Encampment there. The two are cooks for their respective companies.

A special detail, consisting of one man from each company in the One Hundred Sixtieth and One Hundred Fifty-ninth regiments, is to go to Monterey, and will have the kitchens and camp in general in readiness for the arrival of the troops next Sunday.

At the camp will be several thousand guards, including the

One Hundred Sixtieth Infantry regiment from Southern California and the One Hundred Fiftyninth from the San Francisco district, it is understood. For fifteen days they will lead the army camp life under army regulations, will drill and receive instruction in military tactics and other training which has been planned in the program for the camp.

Well Located Camp
This will be the first National Guard encampment at Monterey, and the camp has not yet been named. It is well located on high ground, it is understood, and offers scenic features which should make the encampment a pleasant as well as an instructive affair. Each man is to receive federal pay and the state bonus, it is stated.

Company M and the Headquarters company are to leave here at 2:30 o'clock Saturday afternoon. A large part of the One Hundred Sixtieth will leave Los Angeles on the Southern Pacific and the two local companies will take that train as it comes through here. The Giendale guards will consist of almost 100 men.

Celebrate Fiftieth Wedding Anniversary

A happy reunion of relatives and old-time friends was held recently at the home of Mr. and Mrs. William Vrooman, of 1131 Stanley avenue, when the host and hostess celebrated their fiftieth wedding anniversary. A very pleasant surprise of the occasion was the arrival of a daughter, Mrs. Myrtle Maxwell of Iowa, whose

presence was quite unexpected by the parents. Music was a feature of the evening's entertainment and light refreshments were served.

Mr. and Mrs. Vrooman were born in Meadeville, Pa., and were married in Rock Falls, Ill., in July, 1872. Mr. Vrooman is 74 years of age and Mrs. Vrooman 68. They have six children, Mrs.

George Tyrrell, M. M. Vrooman, Chas. Vrooman, all of Glendale; Robert Vrooman of Inglewood; F. M. Vrooman of Randolph, Iowa; and Mrs. Maxwell of Iowa. All were present with the exception of the sons F. M. and Robert. There are 15 grandchildren.

Among the guests were Mr. and Mrs. W. Sackett of Glendale, who have been friends of the host and hostess since before their

marriage fifty years ago; Mrs. Vrooman's brother, George Tyrrell and his wife and son, George L. Jr., of Glendale; her sister, Mrs. M. J. Norby of Long Beach; three grandchildren, George, Paul and Ruth Tyrrell. Other invited guests were George Tyrrell, Mr. and Mrs. J. W. Millikan of Lodi, Calif.; Mr. and Mrs. Bekins, Mrs. J. S. Tyrrell.

Glendale Musicians Reception Guests

A group of Glendale musicians were included Sunday afternoon in the company received by Mrs. Bessie Bartlett Frankel at her Hollywood home at 6219 Hollywood boulevard. The affair was given for Southern California musicians, some of whom are celebrated artists. There were also invited many who had attended the recent state music convention in Los Angeles.

The receiving line included Mrs. Frankel, Mrs. Lillian Birmingham of San Francisco, and Madame Silva, who took the lead in the presentation of "Carmen" Saturday night in the Hollywood bowl.

Some of the noted guests were Alfred Hertz, who is to conduct the philharmonic orchestra in the concerts in the Hollywood bowl during the summer; Olga Steeb, noted pianist; Gertrude Ross, well

Those attending from Glendale were Mrs. Catherine Shank, Mr. and Mrs. Calvin Whiting, Mrs. John Ray, Mrs. Charles A. Parker and Mrs. Dora L. Gibson.

During the afternoon Alfred Tufts, Los Angeles organist, gave a program in the music room of the Frankel home.

RETURN FROM VACATION

New Phone Book Is Being Distributed

Next to the Bible and dictionary the best and most useful book of the modern age is the telephone book. The Pacific Telephone & Telegraph company today has boys distributing the latest issue to Glendale subscribers.

The Glendale Evening News also is putting out a business directory this week, 5000 copies now being ready for circulation. Besides the valuable information regarding merchants and professional people there is a "teletype" directory which enables the busy person to find out who the party is that calls and leave only the number.

These two valuable books, appearing simultaneously, should greatly facilitate the conduct of business in a rapidly developing community such as Glendale.

Deep-sea crabs grow to a tremendous size along the coast of Alaska, many weighing 25 pounds each. Canneries are to be established there soon and crabs will be put on the market. A great deal of crab meat now being sold in cans in this country is imported from Japan and adorned with American labels.

Boy Scout Camp Committee to Meet

A meeting of the Verdugo Hills District camping committee of the Boy Scouts has been called for tonight at 8 o'clock in the local scout office, 108 North Brand. Peter L. Ferry, chairman of the committee, will preside and final details with regard to the summer scout camp will be decided upon.

Among the business to be taken up is the consideration of bids which have been received for the furnishing of camp supplies. Awards will be made for the furnishing of groceries and meat for the entire camp, from July 20 to 29.

The original capacity of the camp, seventy-five boys, has been signed for long ago, says H. F. Benner, local executive. Due to the number of boys who are not included in the original seventy-five, but who wish to attend camp, arrangements have just been completed to take sixteen more scouts.

The policy of "first come, first served" will be employed in the signing up of the additional sixteen boys. Those who wish to go will have to sign up in a hurry, according to Mr. Benner, for the bidding is sure to be strong for the extra places.

A little mimeographed booklet called "The Camper's Manual," has been gotten out by the district committee, and a copy is being sent to each boy who is to attend the camp. This contains a list of articles to be taken to camp, and a list of things to leave home. The latter list includes playing cards, detective stories and books of that nature, food, candy, toys, dolls, guns, tobacco, home brew, dogs and other pets.

Also in the booklet are notices to the effect that fifty pounds is the limit weight per person for luggage, the list of camp regulations, and the camp program with special features.

The boys are to meet at 7:30 Thursday morning, July 20. They will take a special Pacific Electric train, which leaves the station here at 8 a. m. They will go direct to Wilmington and there take the Avalon for Catalina Island. On the return trip, July 29, the special train will meet the Avalon at Wilmington and will bring the boys to Glendale, arriving here about 8:15 p. m.

Mail for scouts at the camp should be addressed in care of the Pasadena Boy Scout Camp, Howland's Landing, via Avalon, Catalina Island, California.

Juanita Eaton and Herbert Thickett Wed

The Ray A. Borthick home at 321 North Kenwood street was the scene of a wedding ceremony at 1 o'clock Sunday, July 9, 1922, when Mrs. Borthick's daughter, Miss Juanita Eaton and Herbert Thickett of Los Angeles, were married by the Rev. Clifford A. Cole, pastor of the Christian church. Fifty guests were invited for the ceremony and informal reception following.

Pink hydrangeas and carnations were the flowers used in decorating the rooms of the Borthick home for the ceremony. These flowers and masses of greenery were banded in the bay window of the living room, where the bridal party stood for the ceremony.

The only music was the playing of the Lohengrin march by Miss Juanita Emery.

Miss Eaton wore a bridal gown of white Spanish lace and chiffon and carried a wedding veil with wreath of orange blossoms. Her bouquet was a shower of white sweet peas and ferns. She entered with her grandfather, J. O. Eaton, of Santa Barbara.

Miss Ruth Baker of Los Angeles, who attended as maid of honor, wore white organdy with lavender picture hat, and carried sweet peas.

Little Geneva Tapie of Santa Barbara, crowned in yellow tulle, carried the ring on a white satin pillow, embroidered with pearls. The best man was Vern Snodgrass of Los Angeles.

After the ceremony a bridal luncheon was served and Mr. and Mrs. Thickett left for a short trip. For traveling Mrs. Thickett wore blue taffeta. Upon their return they will reside temporarily at the Borthick home.

The young couple were the recipients of many gifts including cut glass, silver and linen.

An interesting feature of the affair was the presence of the bride's grandmother, Mrs. George Newton of Santa Barbara, who is over 90 years old. There were four generations represented by Mrs. Newton, her daughter, Mrs. Mary Burnett, her granddaughter, Mrs. Louise Tapie, and her great-granddaughter, Geneva Tapie. Mrs. Newton will remain for several days with Mrs. Borthick.

A new automatic shuttleless loom has been invented, which, it is believed, will revolutionize the cotton manufacturing industry. The loom is the invention of an Englishman, and is said to give double production, plus automatic weaving.

JULY CLEARANCE

WE expected a generous response to our Annual Clearance Sale and the wonderful response to our efforts proved the attractiveness of the values offered. FELLOWSHIP WITH GOD DISCUSSED BY REV. CRIST

Man Not Necessarily Known by Company He Keeps, Declares Pastor

"Fellowship with God," was the sermon topic yesterday morning at the First Methodist church.

"A man is not necessarily known by the company he keeps but he is known by his fellowships," declared Dr. C. M. Crist. "Many considerations are involved in the matter of associations. Jesus ate with publicans and sinners and offended the most religious people of His day; but He blessed the sinners, which was quite enough reason for His disregarding the conventions.

"The separate life was not taught by Jesus either by example or precept. Monasticism is not Christian; it is utterly pagan.

"Fellowship is quite another thing than mere association. Christian fellowship rests upon something fundamental—the fellowships that individual Christians have with God.

Fundamentally Alike

"What does this fellowship between God and man imply and what does it teach? First, that God and man are fundamentally alike in personality, differing possibly only in degrees. God, in creating man, said, 'Let us make man after our own image.' Fellowship with God is possible because man is God's son.

"Because God and man have likeness, they hold certain things in common. This is always necessary to fellowship. God's sphere of interest and man's overlap and coincide. God and man, therefore, walk together in the closeness of fellowship in a common desire for good.

"Fellowship means mutual blessing. It is not presumptuous for us to believe that we may contribute to God's pleasure. Since the terrible reality of the Fall, man wandered away from God and was lost in the dark. But God called after Adam and said, 'Where art thou?' From that time down to our day God has been seeking fellowship with man.

"Jesus is God saying to a sinful world, 'Where art thou?'

RADIO EXPLAINED

By E. H. LEWIS
INSTRUCTOR NEW YORK Y.M.C.A. RADIO SCHOOL

NEGATIVE GRID BIASING VOLTAGE

If the grid is at any time at a higher potential than the lowest potential point on the filament (positive with respect to the filament), a current will flow in the grid circuit. The normal potential of the grid may be negative and yet slightly positive, with respect to the filament, or both may be at the same potential. In such cases it might only take small variations of applied grid potentials, due to signals, to swing the grid enough positive, with respect to the filament, to produce distortion in the case of radio telephone reception. If the incoming signal is very strong the grid might become quite positive, with respect to the filament, and cause quite serious distortion. It is then desirable to prevent the grid from becoming positive under any conditions, and thereby to prevent any flow of grid current and consequent reduction of the maximum value of the positive half cycles of incoming signal voltage. This can, of course, be done by applying a sufficient negative grid voltage.

This normal grid potential must in any case be large enough to exceed the maximum applied signal voltage.

The value of the normal negative grid potential must not be too great, other conditions remaining equal, or there will be liability of operating on a curved

Joyous Notes and Notes of Sadness Are Heard In Heaven and Earth.

"In all the field of created things only man and the birds sing," asserted Rev. J. C. Livingston yesterday morning at the Casa Verdugo Methodist church.

"The lark rises out of the meadow grass trilling his joyous silvery note higher and higher until he is lost to sight and sound," he continued. "He seems to think that he is God's special messenger between earth and heaven. Birds sing in prison cages. Even blind birds sing.

"Our religion was born in song. The last act of our Lord before Gethsemane was to lead His disciples in song. It is only the Christian religion that pauses by the open grave to sing its song of faith and hope. To those who went down on the ill-fated Titanic, 'Nearer My God to Thee' alone seemed fitting. To the passengers on The London, who, in 1865, went down in the Bay of Biscay, it seemed befitting that they meet the crisis in the song 'Rock of Ages.'

All Kinds of Homes

"What have these messengers to teach us about domesticity? They live in all kinds of places—all kinds of homes. They nest in cliff or tree, or cave or steeple. Be it ever so humble—it is made for a home.

"What have these messengers to tell us about their untainted splendor? They fly into the very heavens. They ride the wind or battle the tempest—yes, without pride. They sweep the earth and walk in the dust; accept what is rejected and find food in the mire—but no mark of the earth remains upon them. They even go down to old age without the mark of years.

"Why should man forget his regal heritage and lower his crown in the humiliating dust of the earth? He need not. If God so clothe them, shall He not much more clothe the you?

"The birds build no barns, nor do they lay by stores, but they do eternally forage and that where the foraging is good. It is the genius of their nature to find what man has failed to utilize, the excess and extravagance of the provident earth."

NEW APPARATUS & DEVICES

By RALPH BROWN
RADIO ENGINEER, CUTTING AND WASHINGTON RADIO CORP.

TWO AUDIO FREQUENCY TRANSFORMERS

The two audio frequency transformers illustrated are becoming quite widely known among experimenters and are considered to be very efficient.

The transformer shown on the

left is rather smaller than the other. The primary is wound with 3900 turns of No. 44 wire and the secondary with 12,000 turns of the same sized wire. The resistance of the primary is approximately 1300 ohms, while that of the secondary is 8500 ohms. The core is made of very light gauge silicon steel and is laminated.

Both types of transformers are mounted in lacquered brass frames and have small bakelite panels, upon which are mounted the primary and secondary binding posts. The windings of both types are wound upon a middle leg of the closed core. Feet are provided with holes, so that the transformers may be mounted either upright or laid down and secured to the panel of a cabinet amplifier.

COMMENT THAT'S ALL

Put Glendale on Map We'll Say It Should Be Development Is Costly Training Gives Courage

By Gil A. Cowan

HERE is Glendale on the map? That was the question asked by hundreds who saw the vacation trip suggestion of the Automobile club in Saturday's edition of The News.

Eagle Rock was another thriving community left out of the cold, cold type, but Burbank and Be-Bie and Bzat and all the rest of the B towns and D towns and J towns were there.

The Chambers of Commerce of the two slighted communities might well wait upon the Auto club officials also everyone else who has anything to do with the future making of maps and see to it that Glendale and Eagle Rock appear wherever Burbank and Bingleville appear.

By this there is no criticism of Burbank, for it is a good old town that woke up two or three years ago and has stretched itself considerably, as a Southerner might say.

And it is no criticism of the Chamber of Commerce here, for it has already written many map makers that Glendale is a first-class postoffice city with more than 30,000 population and deserving of recognition although it is in the shadow of Los Angeles.

And the Automobile club likely never thought about the serious error it was making in not putting Glendale in 48 point type; but we noticed it and so did every one who thought twice and wondered why.

Says the San Francisco Journal, a paper which has become an enthusiastic booster of California's resources:

"The talk of co-operation in developing the resources of northern California will amount to very little unless it deals with practical means of advancing that purpose.

"Individual investment of capital by city dwellers in the back country is a practical suggestion worth considering. It would bring workers in the cities into touch with conditions controlling their sources of supply. It would increase prosperity by augmenting actual production; would add to the health of society by encouraging more natural modes of living. It would stabilize the top-heavy tendencies of modern capitalism and effect a better understanding between producing forces in the country and consumers in the cities, where raw material is assimilated and adapted to new uses."

"It would help keep California white by precluding the purchase of land by aliens, and would be an admirable means of linking San Francisco with the 'hinterland,' into which there have been so many recent incursions from the south."

"The man owning country land would have a more intimate interest than he has at present in perfecting means of communication between town and country, such as highways, power and telephone lines, and so on. He would be inclined to encourage the establishment of better country schools and the beautification of the countryside, and he would quite possibly be interested in making the cities themselves more habitable."

"Hundreds of thousands of acres in Upper California are now producing little for lack of a capital investment of from fifty to three hundred dollars per acre."

Here is a little incident reported in The Red Cross Courier that teaches a lesson. See what you think about it:

"Courage is a peculiar thing. It has a habit of flashing out in the most unexpected places. One looks for it in armies and navies, on the police force and among the firemen—almost anywhere where 'big brave men' are confronted by danger. And history has its heroes as well. And the bravest battles the poet tells us, 'are fought by the mothers of men.'

"It was real courage, though, that blazed out the other day when a young high school girl, a member of the Red Cross Junior Life-Saving corps, at St. Petersburg, Fla., at the imminent risk of her life, went to the aid of her chum who had been struck and mortally wounded by a giant barracuda. The girls were excellent swimmers, due to their lifesaving training, but there was performed an act that deserves the highest recognition when this young girl, not knowing when she herself might be struck, kept her friend afloat for twenty-five minutes in a rough sea until aid reached them.

"It is probable that courage is bred in the blood, but it is also apparent that training shows courage how!"

PREPARE FOR RETIREMENT

LOS ANGELES, July 10.—With reduction of the navy, provided in the new naval appropriation law, 150 chief petty officers at the Los Angeles submarine base today prepared for retirement, according to the local reserve headquarters. These navy men will be transferred to the reserve. It was declared, where they are expected to act as a "backbone" of the organization.

POLICEMAN IS SHOT

ST. LOUIS, July 10.—Policeman Bernard F. Cook was shot and fatally wounded here when he stopped two men in front of the Ely and Walker factory. It was pay day at the factory and when the policeman saw the men one of them drew a revolver and fired. The assailant and his companion escaped.

PICTURE GALLERY OF GOD SUBJECT BY DR. FUNK

Painting of Alexander Has Hint to Christians. Is Opinion of Pastor

"God's Picture Gallery," was the subject of the sermon yesterday morning at the Lutheran church.

Dr. H. C. Funk declared that Alexander the Great was one of the greatest generals of all time. After he had conquered the world some of his friends and admirers were anxious to procure an exact painting of their hero. But, in one of his battles the general had received a severe cut in his forehead which had left an ugly scar.

An eminent artist was procured. Finally it occurred to him that his hero might be portrayed in an attitude of meditation, holding his hand over the ugly wound.

"Ah, would to God that Christians might learn from this heathen painter to cover up and conceal the defects of their friends and neighbors," declared Dr. Funk.

"We are in God's picture gallery this morning and the first picture we shall see is a wonderful revelation of the mercy of God.

Gave Life Voluntarily

"If you had an only son and you were called upon to give him up to die to save his country, nothing could persuade you to make the sacrifice but a heart full of love and mercy for humanity. That is precisely what our Heavenly Father has done for us."

"For God so loved the world that He gave His only begotten son that whosoever believeth in Him should not perish but have everlasting life."

"Jesus did not have to suffer. He had committed no crime and could easily have called down legions of angels from heaven to protect Him from harm. No, the Good Shepherd voluntarily laid down His life for His sheep."

'Elder Brother' Is Rev. Winnard's Topic

The subject of the sermon preached Sunday night at the Tropic Presbyterian church by Rev. James F. Winnard. He based his sermon on the parable of the prodigal son. He said in part:

"So much is said about the sins of the prodigal that we are apt to think that the stay at home brother was just all a dutiful son should be. But an analysis of his actions and word will give a different impression of his character. Ungrateful for what he had received and envious of the reception accorded his brother he became extravagant in his speech and while magnifying his brother's sins magnified also his loyalty to the father and home.

"As for me I think I had rather be in the position of the penitent prodigal than that of the self-righteous stay-at-home who would not recognize his own sins."

Judge Calls Defendant 'Regular Phonograph'

AKRON, Ohio.—So incessantly and so fluently did Myers Abramson talk in his own behalf when taken into court on the charge of being minus a tail light on his auto that Police Judge L. S. Pardee designated him "a regular phonograph."

Playing machine tactics, however, failed to absolve Abramson, who was found guilty.

CLINIC 1900 YEARS AGO SUBJECT OF PASTOR'S TALK

Rev. Harley G. Preston In Sermon Describes Healing of Many Cripples

A clinic at Capernaum 1900 years ago, at which Jesus healed many cripples, was the basis of the sermon yesterday morning at the Pacific Avenue Methodist church.

"The man who writes the story was himself a physician who had practiced in Antioch, after taking his degree under Hippocrates, the greatest of the ancient masters of the healing art," declared Rev. Harley G. Preston. Here is the story as he tells it:

"A man named Jesus had come to town saying that He was come from God. He preached on the great realities with such simplicity and power that the common people heard him gladly and hung upon His words. This was all the more strange because it appeared that He was a mere carpenter with no learning beyond that obtained in the rabbinical schools.

"But stranger things were to happen. This man proposed to prove His claims by healing sick people free of charge. The enclosed court and piazzas of the home where He was staying were crowded with patients and their friends. The lame came hobbling on crutches; mothers brought their sick children in their arms; many of the sufferers were carried in on litters—and 'they were healed every one of whatsoever disease they had.'

With Critical Eyes

"There were scribes and rabbis with official members of the synagogues from the neighboring towns looking on with critical eyes, but what could they say? It was a great day for Capernaum for many homes that in the morning

had been darkened by the shadow of pain at eventide were made to rejoice with exceeding joy.

"The teachings of Christ are as real and influential now as ever. Theodore Parker, while disavowing faith in the supernatural claims of Jesus, was frank to say, 'His doctrine is beautiful as the light, sublime as heaven and true as God.'

"Underneath all civilization you will find His precepts. Cut them out of progress and commonwealths will totter to their fall. The world is full of preachers and teachers but, by common consent, never man spoke like this man. The voice of other old-time worthies come down to us in faint and dying echoes. His is a living voice, more audible, more widely heard, more powerful than ever among men and nations."

The United States, under the international agreement for maintaining communication south of the Great Wall of China, is obligated to defend with force, against all comers, a section of the Peking-Mukden railway.

Well, This Settles Lots of Arguments

LONDON.—Can a man be in love with two women at the same time?

This was the intriguing question raised by Dr. David Forsyth, well-known lecturer and writer of books on psychoanalysis, during the course of a lecture at the London Institute of Hygiene.

He admitted that in his opinion it was impossible.

"A man," he insisted, "has only a limited fund of love on which he can draw. Any affection that he gives to No. 2 means that something is withdrawn from No. 1."

To make this master still clearer the lecturer added:

"A man can be 'head over heels' in love with only one woman at a time.

"He can be half in love with two women.

"He can be one-sixth in love with six women and one-twelfth in love with twelve women."

Whereas, by a Deed of Trust, dated May 26, 1921, recorded December 19, 1921, in book 662, page 246, of Official Records of Los Angeles county, California, to which reference is hereby made, A. S. Knox and Gertrude A. Knox, his wife, did grant and convey the property therein and hereinafter described to the Title Guarantee and Trust Company, a corporation, and other sums of money advanced and interest thereon.

Whereas, said Title Guarantee and Trust Company, by reason of the default in the payment of the principal of said note and of all interest due and payable thereon according to the terms thereof, except the sum of \$29.69 now due and unpaid; and

Whereas, in accordance with the provisions of the Section 2224 of the Civil Code of the State of California, said Bentley-Schoeneman Lumber Company, a corporation, the owner and holder of said note and trust deed, on March 22, 1922, caused to be recorded in the office of the county recorder of said Los Angeles county, a notice of such default, interest and of its election to cause the property described in said trust deed to be sold in accordance with the provisions thereof, to satisfy the sum of \$29.69 now due and unpaid; and

Whereas, said Title Guarantee and Trust Company, by reason of the default in payments as stated, has requested the Title Guarantee and Trust Company, a corporation, to sell said property, or so much thereof as shall be necessary to satisfy the indebtedness secured thereby;

Whereas, said Bentley-Schoeneman Lumber Company, by reason of the default in payments as stated, has requested the Title Guarantee and Trust Company, a corporation, to sell said property, or so much thereof as shall be necessary to satisfy the indebtedness secured thereby;

SENSE OF WONDER CAPTAIN KIDD NOT PROVES BIG AID TO RELIGION REALLY AS BAD FOR MESSAGE, IS WORLD NOT READY FOR MESSAGE, IS PASTOR'S CLAIM

Makes People Aware of Politics Blamed as Cause of God Prepared to Broadcast Power Far Beyond Their Own Making Downfall; Hanged for His Crimes World, but People Not Yet In Right State

"Religion and the Wonder of the world" was the topic of Rev. C. M. Calderwood's sermon yesterday in the L. O. O. F. hall before the members of the Congregational church.

"The sense of wonder is a help to religion," he remarked. "We are made aware of a power beyond our own making for beauty and order and righteousness. Some of the things that caused men of years ago to wonder do not cause us to wonder. We understand the mysteries of the stars and the rain and the winds. Some of the occurrences that were phenomena ages ago are no longer regarded so.

"God is not driven out of the heavens because we understand the nature of the elements. The power of God is back of the wind even though we understand why it blows. Science has told us how God does many things. Some ignorant people suppose that where God is science is not and where science is God is not. The study of science is a study of God's methods with the physical universe. Science is not driving God out of his universe but is disclosing God in his universe. Science is not the enemy of religion but rather its buttress. The warfare between science and religion is an imaginary one. It is the minds of ignorant antediluvians.

Not Scientific Book
"The Bible was not written as a scientific book and should not be used as such. People have tried to prove the earth flat by quotations from the Bible and they have used it as an authority on the movement of the earth. This is not a reverent use of the Bible. The Bible is an authority on religion but not on science.

"Science is not limiting God by showing how he has done things in the material world. Science is showing us a larger world and a larger universe as the sphere of his activities. The wonders of the physical world shows us that God is intelligent and that God is intelligent plan of world development. We apprehend these wonders through the physical senses and are led to see a spiritual purpose.

"There are great spiritual wonders which we apprehend through the spiritual sense. We should be led to worship God when we see what he has planned for us. There are many wonders beyond the range of our physical senses. We have not seen, ear hath not heard the things which God hath prepared for them that love him."

Geona Memorandum
Published by French

PARIS.—A "yellow book" has been published by the French government on the Geona Conference. It contains forty-one documents, including the order for the arrest of Captain Kidd, the invitation of the French government, the French memorandum, the report of the experts from London, the instructions to the president of the French delegation and the German-Russian treaty. The document totals 156 pages

SOLDIERS IN SIX STATES PREPARE FOR TROUBLE

PRESIDENT HOLDS CONFERENCE ON COAL STRIKE

National Guards Ready to Act to Halt Disorders in Railroad Strike

Harding, Cabinet, Operators and Miners Strive to Reach Agreement

CHICAGO, July 10.—The strike of railway shopmen which began ten days ago was expected to reach a crisis today when twelve railroads planned to re-open their shops with non-union employees. National guard troops in six states were mobilized, ready for duty if needed, troops were on guard in two states and scores of deputy United States marshals were alert to prevent disorder.

The time limit set by the railroads for striking employees to return to work without loss of seniority expired today. Early reports indicated that few of the strikers were returning to their jobs.

Troops were on duty at Clinton, Ill., and at Parsons, Kas. Snipers were reported to have fired from ambush upon soldiers doing sentry duty at Clinton. No one was wounded, however. The situation was described as "peaceful" this morning by Sheriff Parsons.

The most critical situation in the Chicago district existed at Aurora, Ill., where warring authority to prevent interference by strikers at the Chicago, Burlington and Quincy shop has been given by U. S. Marshal Robert L. Levy by Federal Judge George A. Carpenter. Reports that 1,500 union men planned to prevent the re-opening of the Burlington shops led to fears of violence and scores of deputy marshals were mobilized to handle the situation.

Another critical situation existed at Bloomington, where it was feared that efforts to re-open the Chicago and Alton shops might lead to violence. Sheriff J. J. Morrison reported he had been unable to mobilize a force of deputies because citizens would not declare that unless troops were sent in immediately he doubted his ability to control the situation.

Acting Governor Fred E. Sterling said that troops would not be sent to Bloomington without further inquiry into conditions there.

Union chiefs and members of the United States railway labor board were apparently making no move today toward settlement of the controversy. So far as the situation remains in statu quo.

"It is the mind that makes the body rich."

The gratifying feature of this year's work has been more than a substantial increase of books and equipment—it has revealed a vital interest on the part of the people and an established business friendship, as it were. The financial increase of the council and the co-operation of the Library Board have enlarged the possibilities of the library and rewarded the staff with gratifying compensation for service rendered. In fact, the keynote has been substantial growth in all departments with but one purpose—that of service. Training classes have been conducted along these lines with generous response.

The coming year reveals for your consideration the following vital needs—an addition to the Main library building, a library collection adequate to the present size of Glendale, a branch in North Glendale and enlargement in the Southern Branch.

I wish to thank the Mayor, Mr. Spencer Robinson, and the City Council for their hearty co-operation and excellent support.

I wish to thank Mr. Spencer, the Chairman of the Library Board, and too much cannot be said of the entire board for their understanding, never-failing interest and valuable advice and I wish to recognize the loyal help given me by the staff, which has at all times manifested a magnificent spirit of service and untiring zeal.

We cannot be too grateful to the patrons of Glendale for the generous treatment given, and in closing, I wish to thank the patrons of the Library for their appreciation of the service given, which they have shown by their unceasing interest.

Respectfully,
ALMA J. DANFORD,
Librarian.

O. Spencer, President Library Board.
Flora M. Temple, Secretary Library Board.

Northern Section to Talk Improvements
Hiram W. Johnson
Club to Be Formed

Mrs. M. B. Buckman, secretary of the Foothill Improvement association, has announced that the organization has called a public mass meeting to be held on Tuesday night at 8 o'clock at the Central library schoolhouse for the purpose of discussing matters of civic improvement in the northern section of the city, the main one of which will be the location of the proposed library building. A large attendance is expected by E. H. Botsford, president of the association, as the library question has attracted an unusual amount of interest among the residents of the northern part of the city.

Representatives of the city council will be on hand to present the matter for consideration, as will also Mrs. John Danford, city librarian. All persons living in the area to be affected by the new library are urged to be present, as it is the aim of the Foothill Improvement association to "place the proposed library building in a location where it will be of service to the most people."

W. A. Horn Likes 'Home Town Paper'
A communication was received this morning at the Glendale Evening News office from W. A. Horn of 221 North Louise street, this city, who has been enjoying a vacation with friends in Syracuse, N. Y., stating that his party will leave on the return trip within the next few days and will probably arrive home early in August. Mr. Horn is high in his praise for the "home town paper," as he terms The Evening News, stating, in part:

"We have enjoyed reading our home town paper each day and it has kept us in close touch with all of the happenings there."

Mr. Horn stated that the return trip would include brief visits in Rochester, Buffalo, Cleveland and other points of interest en route.

Atlantic coast line is 5560 miles long.

GIRARD BENEFIT TICKETS
Tickets for the all-star entertainment which is to be held at 4:30 o'clock next Sunday afternoon at the Glendale Theatre as a testimonial of appreciation to Harry Girard, well-known local singer and music instructor who is at present in a Los Angeles hospital as the result of a recent accident, will be placed on sale this afternoon at the theatre box office. Tickets will be sold throughout the week.

The Gypsies of Hungary, who have furnished Hungary its music and ballads for centuries, have organized to drive out the negro jazz band artists of Budapest and other cities.

A weevil has been discovered in Stone county, Mississippi, which is injurious to the tomato, potato and turnip. It is one-third of an inch long, dull gray in color and bears on the wing-covers a pale V-shaped mark.

People 90 Years Or More, Here Is Something for You
The sun is nearing the horizon in the lives of many of Glendale's residents, some of whom have seen the history of a century in the making, and many others who have witnessed the events and progress of ninety years and more.

Some of these venerable men and women crossed the plains in the prairie schooners in '49 and their minds are rich with the memories of life in the east and of the hardships encountered in traveling to the great new western land of promise.

There are others who did not leave their homes in the east and middle west for California until after the Civil war. Many of the men and women took active parts in that great national struggle, while others viewed it through the eyes of childhood.

In addition to the great number of adopted sons and daughters, there are many native Californians, many of whom can recall when the Indians roamed the plains where the cities now stand.

One does not have to go to the libraries and shake the dust off the volumes of history to find the stories and romance of the centuries. One need only go out among the people and talk with those whose hair is white and step slow, but whose hearts still beat with the adventurous memories of the years and whose eyes shine brightly when they speak of their ninety or more years and tell of events they have witnessed and national and world privileges to see or know.

As a mark of respect for these old people and for the education and pleasure of their friends, both old and young, The Glendale Evening News plans to run brief mention about the city's residents who are 90 years or more.

The paper will help all subscribers and readers to solicit and any information regarding any interesting old person living in or near Glendale will be gladly received. The News wants their full name, age, place of birth, how long in California, in Glendale and any other interesting facts.

Tujunga People Pay Enough, Railroad Commission's Decision Declares

The Richardson Transportation company, operating an auto stage between Los Angeles, Glendale, Montrose, Tujunga and Sunland was refused permission by the railroad commission today to put into effect an increased schedule of rates. The commission points out that a check of applicant's books made by the financial department of the commission showed receipts for 1921 of over \$7,000 in excess of the amount reported while operating expenses were over \$700 less than claimed. Leave to renew the application was granted, "provided the applicant comes up with the financial statement with dependable data for a representative period, during which his accounts have been checked in accordance with the requirements of the commission."

Fishing Prohibited
Fishing for bass in the San Fernando and Chatsworth reservoir of the Los Angeles water system has for several years been a popular sport among the anglers of the valley. When the season opened this year the Los Angeles health department had an ordinance passed by council which shut off the privilege of fishing and camping near the reservoirs owing to unsanitary practices by some of the fishermen and campers. For a time this ordinance was not rigidly enforced and fishing was allowed but recent infractions of the rules and regulations by a few careless parties have again drawn the ban and no longer can fishing parties enjoy the sport of hauling out the large bass.

Beautifying Burbank
The first steps have been taken for the reforestation of the city of Burbank, for, following the special meeting which the city trustees held last week with F. A. Marek, ex-city forester of Glendale as the specially invited guest to address the officials, Homer Davis who is responsible for the beautiful lawn and flowers about the city hall, has gone into Los Angeles and secured the seed for the trees which are to result in making Burbank one of the beauty cities of southern California.

To Preserve Fruit
Negotiations are under way by a group of Van Nuys men for the leasing of the Beales-Kimball drying plant at North Sherman Way junction to help take care of the fruit that will be grown in the Van Nuys community this season. This plant, which has been idle for several years, is centrally located and, with the addition of some new equipment, can be put in shape to handle about 600 tons of fruit and give employment to several hundred people.

Meeting at Roscoe
Bert L. Farmer, former president of the Los Angeles City council and former state legislator, will address the citizens of Roscoe on the district representation form of government, Tuesday evening, July 11, at the Vineland school, under the auspices of the Roscoe Farm Bureau.

Big Congregations At Central Christian
Large congregations at both morning and evening service yesterday packed the new auditorium of the Central Christian church.

Rev. John H. LeGrande preached upon the subject, "Sons of God."

A delegation from Burbank visited the church for the evening service when Rev. LeGrande answered the inquiry, "Where Will You Spend Eternity?"

A short concert preceded the sermon. Mr. and Mrs. C. M. Howe played "The Holy City" upon the marimba. They sang a number of negro spirituals. Miss Hazel Linkogel played a violin solo.

The subject of tonight's address will be "The Peculiar Aim of the Church."

Glendale Folk Are Visitors at Yosemite
Mrs. C. E. Hutchinson of 246 North Orange street is in receipt of a letter from her son, Paul Hutchinson, who is spending the summer at Yosemite Valley. He states that a number of Glendale residents have been spending their vacations at that popular national park, including Miss Mona Gardner, Miss Florence Knight and Miss Lillian Shattuck, members of the high school staff; Ezra Parker and family and the William Taylor family. Paul Hutchinson also described the wonderful display of fireworks at Glacier Point as being one of the most beautiful sights he had ever witnessed.
